

Crear un tablero (formulario) en PowerShell con 9 botones y que cuando se pulse por primera vez aparezca un 0 y si se vuelve a pulsar cambia a X

[crayon-6a9d581d9f088649773975/]

```
{
    $thisbutton = New-Object System.Windows.Forms.Button
    [string]$thisbuttonname = $buttons_functions
    # $thisbutton.Text = $thisbuttonname
    $thisbutton.Size = New-Object System.Drawing.Size(30,30)
    if($loop%3 -eq 0)
    {
        $valor += 30
        $thisbutton.Location = New-Object System.Drawing.Size(15,$valor)
        $loop2 = 1
    }
    else
    {
        $thisbutton.Location = New-Object System.Drawing.Size(15,$valor)
        $loop2 += 1
    }
    $thisbutton.Add_Click({
        if($this.text -eq "0")
        {
            $this.text = "X"
        }
        else
        {
            $this.text = "0"
        }
    })
    $Form.Controls.Add($thisbutton)
    $loop += 1
}
$Form.ShowDialog()
```

```
28 # $thisbutton.Text = $thisbuttonname
29 $thisbutton.Size = New-Object System.Drawing.Size(30,30)
30 if($loop%3 -eq 0)
31 {
32     $valor += 30
33     $thisbutton.Location = New-Object System.Drawing.Size(15,$valor)
34     $loop2 = 1
35 }
36
37
38 $thisbutton.Location = New-Object System.Drawing.Size(15,$valor)
39 $loop2 += 1
40
41 $thisbutton.Add_Click({
42     if($this.text -eq "0")
43     {
44         $this.text = "X"
45     }
46     else
47     {
48         $this.text = "0"
49     }
50 })
51
52 $Form.Controls.Add($thisbutton)
53 $loop += 1
54 }
55 $Form.ShowDialog()
```
