

Mostrar información sobre una acción del IBEX 35

[crayon-6a9d7bd82a317497688319/]

The screenshot shows a Windows PowerShell ISE window with a script that fetches stock data from the IBEX 35. The script uses `Invoke-WebRequest` to get HTML data, processes it with `Where-Object`, `Trim`, and `ConvertFrom-Csv` to extract a table of stock information.

```
1 $web = (Invoke-WebRequest 'http://www.bolsamadrid.es/esp/aspx/Empresas/FichaValor.aspx?ISIN=ES0148396007')
2
3 $webhtml = $web.AllElements.where{$_.id -eq "ct100_Contenido_tblPrecios"}.outerhtml
4 $sinhtml = $webhtml.replace(".", "").replace(",", ".").replace("</th>", "</th>").replace("</td>", "</td>") -replace "<.*?>"
5 $htmlsin = $sinhtml.trim()
6 $sinespa = $htmlsin.replace(" ", "")
7 $concsv = $sinespa | ConvertFrom-Csv
8 $concsv
```

The output of the script is a table of stock data:

Fecha	: 12/02/2021
Hora	: Cierre
Cierre	: 25.7100
Ref	: 25.5900
% Dif	: 0.47
Últ	: 25.7100
Máx	: 25.7600
Mín	: 25.2400
Medio	: 25.6054
Volumen	: 1711153
Efectivo	: 43816194.71

The PowerShell prompt shows the user is `PS C:\Users\juan>`. The status bar at the bottom indicates the script is `Completado` (Completed) at `Lin. 8 Col. 9` with a zoom level of `135 %`.
