

Mostrar los mensajes de error de Apache de forma agrupada desde PowerShell

[crayon-6a9d579e02c6c927905561/]

The screenshot shows the Windows PowerShell ISE interface. The script in the editor is as follows:

```
1 $datos = foreach($linea in Get-Content "C:\xampp\apache\logs\error.log")
2 {
3     $linea.split("[") [4]
4 }
5
6 ($datos | Group-Object | sort count).name |
```

The output of the script is displayed in the console, showing a list of error messages grouped by their type and count. The output is as follows:

```
