

Crear un .EXE de un script en PowerShell

[crayon-6a9d5fb6962a8814386165/]

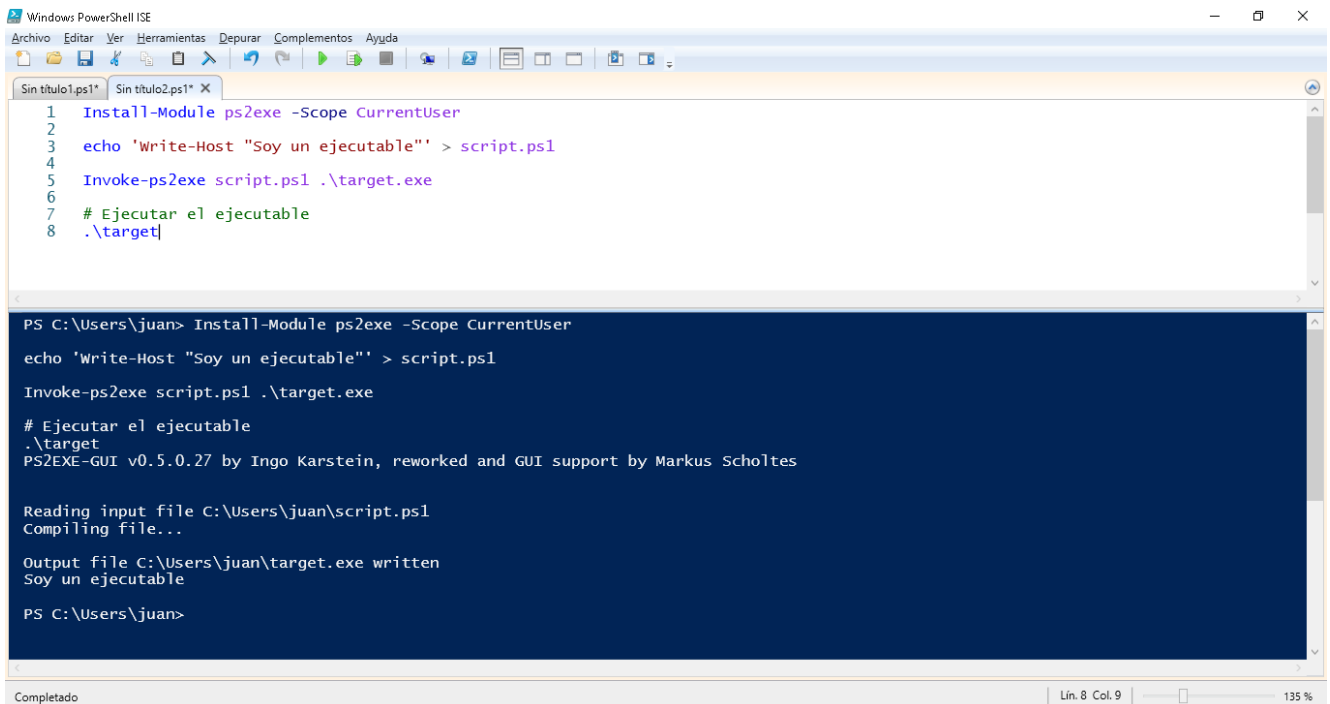

The screenshot shows the Windows PowerShell ISE interface. The script editor contains the following code:

```
1 Install-Module ps2exe -Scope CurrentUser
2
3 echo 'write-Host "Soy un ejecutable"' > script.ps1
4
5 Invoke-ps2exe script.ps1 .\target.exe
6
7 # Ejecutar el ejecutable
8 .\target
```

The console window shows the execution of the first three lines of the script:

```
PS C:\Users\juan> Install-Module ps2exe -Scope CurrentUser
echo 'write-Host "Soy un ejecutable"' > script.ps1
Invoke-ps2exe script.ps1 .\target.exe
```

A security warning dialog box is displayed, asking for confirmation to install modules from an untrusted repository. The dialog text is: "Repositorio que no es de confianza. Estás instalando los módulos desde un repositorio que no es de confianza. Si confías en este repositorio, cambia su valor InstallationPolicy ejecutando el cmdlet Set-PSRepository. ¿Estás seguro de que quieres instalar los módulos de 'PSGallery'?" The dialog has buttons for "Sí", "Sí a todo", "No", "No a todo", and "Suspender".

The screenshot shows the Windows PowerShell ISE interface after the script has been executed. The script editor contains the same code as the previous screenshot:

```
1 Install-Module ps2exe -Scope CurrentUser
2
3 echo 'write-Host "Soy un ejecutable"' > script.ps1
4
5 Invoke-ps2exe script.ps1 .\target.exe
6
7 # Ejecutar el ejecutable
8 .\target
```

The console window shows the execution of the script, including the output of the echo command and the successful execution of the Invoke-ps2exe command:

```
PS C:\Users\juan> Install-Module ps2exe -Scope CurrentUser
echo 'write-Host "Soy un ejecutable"' > script.ps1
Invoke-ps2exe script.ps1 .\target.exe
# Ejecutar el ejecutable
.\target
PS2EXE-GUI v0.5.0.27 by Ingo Karstein, reworked and GUI support by Markus Scholtes

Reading input file C:\Users\juan\script.ps1
Compiling file...

Output file C:\Users\juan\target.exe written
Soy un ejecutable

PS C:\Users\juan>
```

The status bar at the bottom indicates "Completado" (Completed).
