

Algoritmo de cifrado sencillo

[crayon-6a9d6777dec4c998642211/]

The screenshot shows the Windows PowerShell ISE interface. The top menu bar includes 'Archivo', 'Editar', 'Ver', 'Herramientas', 'Depurar', 'Complementos', and 'Ayuda'. The toolbar contains icons for file operations, editing, and execution. The script editor shows a file named 'Sin título1.ps1' with the following code:

```
1 $text="abcdefghij abcd"
2 $var=8
3 (0..($text.Length-1) | % {[char]::ConvertFromUtf32([char]::ConvertToUtf32($text[$_].ToString(),0)+$var)}) -join ""
```

The console window shows the execution of this script for different values of \$var (1 through 8). The output for each execution is as follows:

- \$var=1: bcdefghijklbcde
- \$var=2: cdefghijkl" cdef
- \$var=3: defghijklm#defg
- \$var=4: efghijklmn\$efgh
- \$var=5: fghijklmno%fghi
- \$var=6: ghijklmnop&ghij
- \$var=8: ijklmnopqr(ijkl

The status bar at the bottom indicates 'Completado' (Completed) and shows the current position as 'Lín. 2 Col. 7' with a zoom level of 100%.
