

Ejercicios de PowerShell: crear un menú

```
Function showmenu {  
    Clear-Host  
    Write-Host "Starting Menu..."  
    Write-Host "1. Search"  
    Write-Host "2. Create"  
    Write-Host "3. Delete"  
    Write-Host "4. Exit"  
}
```

```
showmenu
```

```
while(($inp = Read-Host -Prompt "Select an option") -ne "4"){
```

```
switch($inp){  
    1 {  
        Clear-Host  
        Write-Host "-----";  
        Write-Host "Search account";  
        Write-Host "-----";  
        pause;  
        break  
    }  
    2 {  
        Clear-Host  
        Write-Host "-----";  
        Write-Host "Create account";  
        Write-Host "-----";  
        pause;  
        break  
    }  
    3 {  
        Clear-Host  
        Write-Host "-----";  
        Write-Host "Remove account";  
        Write-Host "-----";  
        pause;  
    }  
}
```

```
        break
    }
    4 {"Exit"; break}
        default {Write-Host -ForegroundColor red -
BackgroundColor white "Invalid option. Please select another
option";pause}
    }

showmenu
}
```
