

Using OneGet to install a package

[crayon-6a9d5f7c90393122412439/]

The screenshot shows the Windows PowerShell ISE interface. The command `Install-Package filezilla` has been entered and executed. The output is a table showing the installation details for FileZilla.

```
PS C:\Windows\System32> Install-Package filezilla
```

Name	Version	Status	ProviderName	Source	Summary
filezilla	3.10.1.1	Installed	Chocolatey	chocolatey	FileZilla - The free FTP solution

The status bar at the bottom indicates the cursor is at Line 1, Column 26, and the window is zoomed to 100%.
