

Mostrar los colores de primer plano de la consola en PowerShell

[crayon-6a9e077305798078215707/]

The screenshot shows the Windows PowerShell ISE interface. The command prompt shows the command `0..15 | % {write-Host -ForegroundColor ([ConsoleColor]$_) -Object "X" -NoNewline}` being executed. The output displays a row of 16 'X' characters, each in a different foreground color, corresponding to the 16 available console colors. The status bar at the bottom indicates 'Completado' and 'Lin. 1 Col. 39'.

```
Sin título1.ps1 X
1 0..15 | % {write-Host -ForegroundColor ([ConsoleColor]$_) -Object "X" -NoNewline}

PS C:\Users\juan> 0..15 | % {write-Host -ForegroundColor ([ConsoleColor]$_) -Object "X" -NoNewline}
X X X X X X X X X X X X X X X X
PS C:\Users\juan>
```

Completado Lin. 1 Col. 39 160 %
