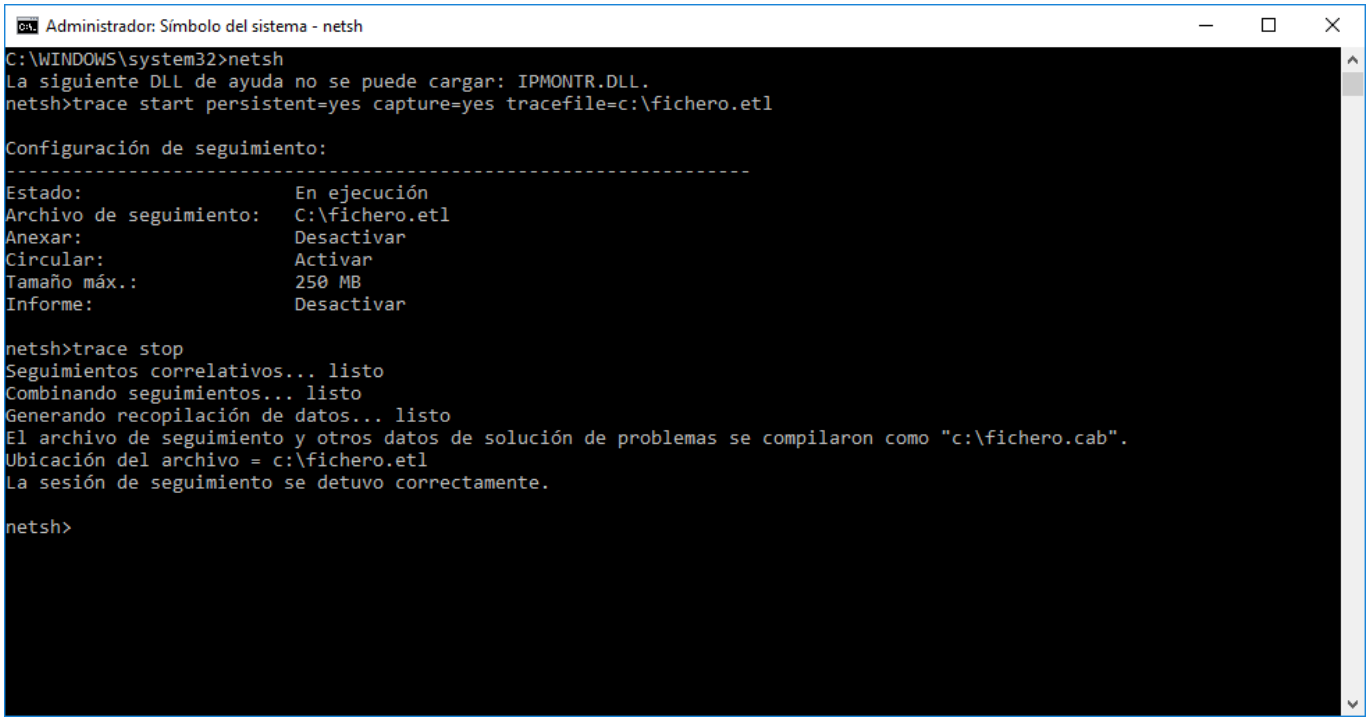
# Capture a Network Trace without installing anything

1. Open an elevated command prompt and run:
[crayon-6a9db70357a56701400181/]



2. Reproduce the issue or do a reboot if you are tracing a slow boot scenario.

3. Open an elevated command prompt and run:
[crayon-6a9db70357a5e859205721/]
Your trace will be stored in c:\fichero.etl**or where ever you saved it. You can view the trace on another machine using Microsoft Message Analyzer.
