

Domain name scams

Ha llegado un nuevo mensaje de acoso al dominio (no hay que hacer caso, es un intento de timo):

(If you are NOT CEO, please forward this to your CEO or your legal department, because this is urgent. Thanks.)

Dear CEO,

We received a formal application from a person who is called Peter Alldis is applying to register «Dominio» as their domain names and Internet brand in Hong Kong and also in Asia on May 22, 2009. During our auditing procedure we find out that the alleged Peter Alldis has no trade mark, brand nor patent even similar to that word. As authorized anti-cybersquatting organization we hereby suspect the alleged Peter Alldis to be a domain or trademark grabber. Hence we need you confirmation for two things, First of all, whether this alleged Peter Alldis is your business partner or distributor in Asia.

Secondly, whether you are interested in registering these domains and internet brand instead of that alleged person. (The alleged Peter Alldis will be entitled to obtain a domain not needed by original trademark owner.)

If you are not in charge of this please forward this email to appropriate dept.

This is a letter for confirmation. If the mentioned third party is your business partner or distributor in Asia and you are not interested in register these domains and internet brand please DO NOT reply. We will automatically confirm application from your business partner after this audit procedure.

Best Regards,

Eddy

Registration Commissioner
