

Buscar archivos png en una web con WSL (Windows Subsystem for Linux) desde PowerShell

```
[crayon-6a9d98be2e471236153107/]
```

A screenshot of the Windows PowerShell Integrated Scripting Environment (ISE). The title bar reads "Windows PowerShell ISE". The menu bar includes "Archivo", "Editar", "Ver", "Herramientas", "Depurar", "Complementos", and "Ayuda". The toolbar contains icons for file operations like opening, saving, and printing. A single tab titled "Sin título1.ps1 * X" is open. The command prompt shows the execution of the following command:
`1 bash -c "wget -r -l3 -t1 -nd -N -np -A.png -erobots=off https://www.jesusninoc.com"`
The output is displayed on a dark blue background with white text. It starts with "100%", followed by "9.08M+0.005s". Then it says "Last-modified header missing -- time-stamps turned off.", "2018-06-09 10:57:16 (9.08 MB/s) - â€˜index.html.tmpâ€™ saved [50188/50188]", "Removing index.html.tmp since it should be rejected.", "--2018-06-09 10:57:16--", and the URL "https://www.jesusninoc.com/2018/06/04/ejecutar-la-informacion-que-se-encuentra-en-un-valor-dentro-de-la-clave-clsid-del-registro-de-windows/". It continues with "Reusing existing connection to www.jesusninoc.com:443.", "HTTP request sent, awaiting response...", "200 OK", "Length:", "63073 (62K) [text/html]", "Saving to: â€˜index.html.tmpâ€™", "OK", several dots indicating progress, another "OK", more dots, and finally "81%", "7.79M", "0s", and "SDC .". At the bottom left, the status bar says "Deteniendo". At the bottom right, it shows "Lin. 1063 Col. 1" and "115 %".
