

Crear un dibujo que contenga dos círculos utilizando la clase Graphics en PowerShell

```
# Crear un dibujo que contenga dos círculos
```

```
$pen = [Drawing.Pen]::new("red",5)
```

```
$form = [System.Windows.Forms.Form]@{  
    Text = 'Mi formulario'  
    Width = 500  
    Height = 550  
}
```

```
$brush = [System.Drawing.SolidBrush]::new("black")
```

```
$form.add_paint({  
    $form.createGraphics().FillEllipse($brush,[System.Drawing.RectangleF]::new(60,35, 100,100))  
    $form.createGraphics().FillEllipse($brush,[System.Drawing.RectangleF]::new(160,35, 100,100))  
})
```

```
$form.ShowDialog()
```
