

Convertir un dato de tipo String a Hashtable con PowerShell

[crayon-6a9d5f809d64e285453200/]

```
PS /Users/lamac> $String = @'
>> Marca=Audi
>> Modelo=A3
>> Color=rojo
>> '@
PS /Users/lamac>
PS /Users/lamac> $Hash = $String | ConvertFrom-StringData
PS /Users/lamac>
PS /Users/lamac> $Hash.Marca
Audi
PS /Users/lamac> $Hash.Color
rojo
PS /Users/lamac> $String.Get
GetEnumerator GetHashCode GetType GetTypeCode
PS /Users/lamac> $String.GetType()

IsPublic IsSerial Name
-----
True True String
System.Object

PS /Users/lamac> $Hash.GetType()

IsPublic IsSerial Name
-----
True True Hashtable
System.Object

PS /Users/lamac> █
```
