

Ejercicios de PowerShell: comprobar que existe un fichero

[crayon-6a9d67f18e073252693647/]

```
PS /Users/lamac/carpeta> Get-ChildItem ./fichero.txt

Directory: /Users/lamac/carpeta

Mode                LastWriteTime         Length Name
----                -
09/20/2021   15:22             0 fichero.txt

PS /Users/lamac/carpeta> Get-ChildItem ./ficheros.txt
Get-ChildItem : Cannot find path '/Users/lamac/carpeta/ficheros.txt' because it does not exist.
At line:1 char:1
+ Get-ChildItem ./ficheros.txt
+ ~~~~~
+ CategoryInfo          : ObjectNotFound: (./Users/lamac/carpeta/ficheros.txt:String) [Get-ChildItem], ItemNotFoundException
+ FullyQualifiedErrorId : PathNotFound,Microsoft.PowerShell.Commands.GetChildItemCommand

PS /Users/lamac/carpeta> 
```
