

Registrar un evento y mostrar un mensaje en PowerShell cuando se ejecuta un programa

[crayon-6a9d99dad1099659853558/]

The screenshot shows the Windows PowerShell ISE interface. The script in the editor is as follows:

```
1 #Ejecutar PowerShell como administrador
2 while(1)
3 {
4   Get-Event | Remove-Event -ErrorAction SilentlyContinue
5   #Registrar el evento de ejecutar notepad
6   Register-WmiEvent -Query "SELECT * FROM Win32_ProcessStartTrace WHERE ProcessName='notepad.exe'"
7   Wait-Event -OutVariable Event | Out-Null
8   $Event.sourceargs.newevent | select-Object ProcessName,TIME_CREATED
9 }
```

The console output shows the results of the script execution:

```
$Event.sourceargs.newevent | select-Object ProcessName,TIME_CREATED
}

ProcessName      TIME_CREATED
-----
notepad.exe 131494295485873786
notepad.exe 131494295485873786
notepad.exe 131494295525882028

PS C:\WINDOWS\system32>
```

The status bar at the bottom indicates "Detenido" (Stopped) and shows the cursor is at line 9, column 2, with a zoom level of 95%.
